

# DIGITAL FAX

## CLOUD-BASED FAXING

### HIPAA Compliant

The easiest and most advanced way to securely share documents across any internet-connected device.

What can digital fax do for you?

- Send and receive faxes from anywhere
- Eliminate dedicated phone lines
- Enhance security with encryption
- Reduce costs for paper, ink/toner & machine maintenance

### Security

Eliminate third-party interception risk. Automatically encrypt all transmissions. Multi-Factor Authentication

### Value

Eliminate the need for stand-alone or POTS fax phone lines. Reduce costs for paper, ink, toner, and fax machine maintenance

### Mobility

Manage users, settings, view history & faxes through your web-based portal. Send and receive faxes from your email.

### Efficiency

Reduce wasted trips from desks to machine. Stop waiting by a machine for faxes to come through. Say goodbye to paper-jams

Fax with Confidence

(800) 974-4800

telnetww.com

### Guaranteed Security

Secure document delivery that meets the stringent requirements of HIPAA, PCI DSS and SOC. Included encryption, audit trails, and intrusion detection.

### Reliability

Our advanced network infrastructure built exclusively for cloud faxing with proprietary routing technology ensures industry-leading fax success rates.

## Digital Fax Accessories:

FaxBridge

An add-on to your digital fax service that allows you to eliminate dedicated POTS phone lines while continuing using your existing fax or multi-function machine with enhanced security.

### Security

Cloud enable your physical fax machine with our reliable adapter to add convenience and security.

### Flexibility

Configure your existing machine to accept incoming faxes to your inbox while maintaining flexibility for paper-based outbound fax capabilities.

### Cost Savings

Eliminate the expensive analog phone lines, even if you want to keep your existing machine.

## Get to Know TelNet Worldwide
