

Grandstream HT812 ATA

Installation Guide

Installation Requirements

Please check to see that you have the following:

HT812 ATA

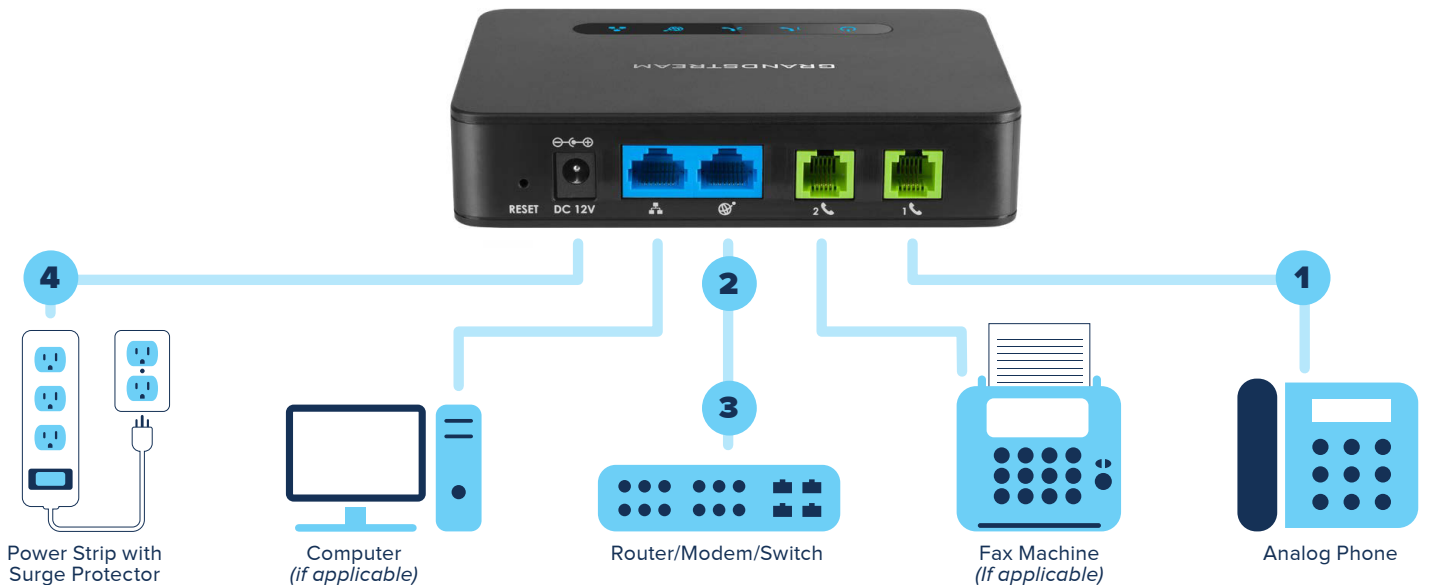

Ethernet Cable

Power Supply

You will also need:

- One touch tone analog phone (corded or cordless)
- Telephone cable
- An active internet connection
- Access to the internet via an Ethernet port on router, modem or switch
- Internet phone service (from 1 to 2 active lines)

Installation

- 1 Connect the phone cable to the first **green** phone port on the Grandstream HT812 ATA.
- 2 Connect one end of Ethernet cable to the **blue** Ethernet WAN port on the Grandstream HT812 ATA.
- 3 Connect the other end to an Ethernet port on your internet router, modem or switch.
- 4 Connect the provided AC power supply to the Grandstream HT812 ATA and a power outlet. *A power strip with a surge protector is recommended.*
