

A SECURE AND POWERFUL DATA ENVIRONMENT

Protect Your Infrastructure Before Disaster Strikes

Stop worrying about outages, downtime and security breaches. Host your business-critical equipment in our Tier III data center facility and guarantee business continuity. In the digital age, your business needs reliable data storage and delivery with low latency and ultra-fast speeds.

Power

Our data center's 2N UPS design is leading-edge, with A, B, C and D systems powering all cabinets with active-active feeds.

Capacity

Expecting expansion? Need to cover overflow? With a 40,000 square foot facility, we've got plenty of room for you to grow.

Security

Our facility is protected with multi-stage security at every level. Our system includes mantraps, PIN and video authentication.

Redundancy

Our design includes multiple layers of redundancy for critical power, cooling, network and security systems.

Guarantee Your Uptime
